

# Hunger Games

## The Control of Appetite

A talk by **Lora Heisler**,  
University of Aberdeen, UK

**8 July 2019,  
6pm-7pm**

**Aberdeen Exhibition  
and Conference  
Centre**

How does our brain control appetite?

What are potential new treatments for  
obesity and Type 2 diabetes?

Why do some people struggle to lose weight?

Register now for this **FREE** talk: [bit.ly/303YYY5](https://bit.ly/303YYY5)

**The  
Physiological  
Society**

**Hunger Games – The Control of Appetite**  
Aberdeen Exhibition and Conference Centre  
Bridge of Don, Aberdeen AB23 8BL, UK

Hear the answers to these questions and more, as Lora Heisler shares her research into new medicines to treat obesity and type 2 diabetes, and how the brain controls appetite and blood sugar.

Lora is Chair of Human Nutrition based at the Rowett Institute at the University of Aberdeen.
